34 3099.2. (a) (1) Persons who perform work as electricians shall  
35 become certified pursuant to Section 3099 by the deadline specified  
36 in this subdivision. After the applicable deadline, uncertified  
37 persons shall not perform electrical work for which certification  
38 is required.

39 (2) The deadline for certification as a general electrician or  
40 fire/life safety technician is January 1, 2006, except that persons

1 who applied for certification prior to January 1, 2006, have until  
2 January 1, 2007, to pass the certification examination. The deadline  
3 for certification as a residential electrician is January 1, 2007, and  
4 the deadline for certification as a voice data video technician or a  
5 nonresidential lighting technician is January 1, 2008. The California  
6 Apprenticeship Council may extend the certification date for any  
7 of these three categories of electricians up to January 1, 2009, if  
8 the council concludes that the existing deadline will not provide  
9 persons sufficient time to obtain certification, enroll in an  
10 apprenticeship or training program, or register pursuant to Section  
11 3099.4.

12 (3) ~~(A)~~ For purposes of any continuing education or  
13 recertification requirement, an individual who becomes certified  
14 prior to the deadline for certification shall be treated as having  
15 become certified on the first anniversary of his or her certification  
16 date that falls after the certification deadline.

17 (B) Continuing education instruction by an entity that is not  
18 approved by the Chief of the Division of Apprenticeship Standards

24 ~~electrical contractors~~ under the Contractors' State License Board  
25 Rules and Regulations.

26 (2) Certification is not required for persons performing work  
27 for contractors licensed as class C-7 low voltage systems or class  
28 C-45 electric sign contractors as long as the work performed is  
29 within the scope of the class C-7 or class C-45 license, including  
30 incidental and supplemental work as defined in Section 7059 of  
31 the Business and Professions Code, and regardless of whether the  
32 same contractor is also licensed as a class C-10 contractor.

33 (3) Certification is not required for work performed by a worker  
34 on a high-voltage electrical transmission or distribution system  
35 owned by a local publicly owned electric utility, as defined in

4 electrician, fire/life safety technician, residential electrician, voice  
5 data video technician, and nonresidential lighting technician.

6 (d) Notwithstanding subdivision (a), certification is not required  
7 for registered apprentices performing electrical work as part of an  
8 apprenticeship program approved under this chapter, a federal

10 program authorized by the federal Office of Apprenticeship. An  
11 apprentice who is within one year of completion of his or her term  
12 of apprenticeship shall be permitted to take the certification  
13 examination and, upon passing the examination, shall be certified  
14 immediately upon completion of the term of apprenticeship.

15 (e) Notwithstanding subdivision (a), certification is not required  
16 for any person employed pursuant to Section 3099.4.

17 (f) Notwithstanding subdivision (a), certification is not required  
18 for a nonresidential lighting trainee (1) who is enrolled in an  
19 on-the-job instructional training program approved by the Chief  
20 of the Division of Apprenticeship Standards pursuant to Section  
21 3090, and (2) who is under the onsite supervision of a  
22 nonresidential lighting technician certified pursuant to Section  
23 3099.

24 (g) Notwithstanding subdivision (a), the qualifying person for  
25 a class C-10 electrical contractor license issued by the Contractors'  
26 State License Board need not also be certified pursuant to Section  
27 3099 to perform electrical work for that licensed contractor or to  
28 supervise an uncertified person employed by that licensed  
29 contractor pursuant to Section 3099.4.

30 (h) Commencing July 1, 2009, the following shall constitute  
31 additional grounds for disciplinary proceedings, including

38 supervision of uncertified workers required by paragraph (3) of  
39 subdivision (a) of Section 3099.4.

(3) The contractor willfully fails to provide adequate supervision of apprentices performing work pursuant to subdivision (d).

(i) The Chief of the Division of Apprenticeship Standards shall develop a process for referring cases to the Contractors' State License Board when it has been determined that a violation of this section has likely occurred. On or before July 1, 2009, the chief shall prepare and execute a memorandum of understanding with the Registrar of Contractors in furtherance of this section.

(j) Upon receipt of a referral by the Chief of the Division of Apprenticeship Standards alleging a violation under this section, the Registrar of Contractors shall open an investigation. Any disciplinary action against the licensee shall be initiated within 60 days of the receipt of the referral. The Registrar of Contractors may initiate disciplinary action against any licensee upon his or her own investigation, the filing of any complaint, or any finding that results from a referral from the Chief of the Division of Apprenticeship Standards alleging a violation under this section. Failure of the employer or employee to provide evidence of certification or trainee status shall create a rebuttable presumption of violation of this provision.

(k) For the purposes of this section, "electricians" has the same meaning as the definition set forth in Section 3099.
